

Dimensions

Purveyors of authentic Italian lime plaster and extraordinary finishes

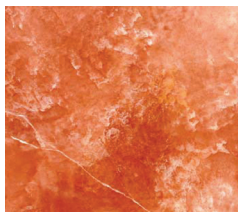

We founded our company with a commitment to provide green products and promote a beautiful, healthy environment for everyone.

Dimensions offers a collection of the finest authentic Italian lime plasters and paint, and natural earth pigments which are UV resistant, VOC free, and inhibit mold and mildew for interior and exterior wall finishes.

Dimensions Italian lime plasters are from the highest quality limestone, utilizing the same process today as the Romans did thousands of years ago.

From hi-gloss Venetian plaster to 'old world' texture, the natural beauty of our Italian plaster will enhance any décor. We can match any color chip, and have trained certified artisans throughout the U.S. and Caribbean.

Quality control and customer service are our priorities.

- Dimensions Italian Lime Plaster has NO volatile organic compounds (VOC's), and is LEED compliant. Dimensions plaster absorbs carbon dioxide and expels moisture from the wall as it dries, naturally resisting mildew, thus creating a healthier environment.
- Dimensions Italian Lime Plaster reverts back to a natural stone state once fully cured, providing lasting beauty for generations.
- Natural mineral pigments are incorporated into the plaster, thus eliminating the need to paint.
- Lime plaster is a natural sound barrier and insulator.
- Lime plaster does not burn like paint or synthetic finishes and will help keep a fire contained.
- Dimensions Italian lime plaster finishes are easy to maintain, and age to a beautiful patina, for interior and exterior applications.
